Career

Manager of Technical Services, American Bonanza Society, Wichita, Kansas, 2003-present. Propose and oversee all ABS educational efforts to include magazine, website, Technical Counselor program, Service Clinics, and coordination of ABS Air Safety Foundation's Beech Pilot Proficiency Program (BPPP). Coordinate all Technical Initiatives. Plan and coordinate Oshkosh and ABS Convention educational programs. Writer and speak on Beech aviation safety.

Mastery Flight Training, Cleveland, Tennessee and Rose Hill, Kansas, 2002-present. Aviation safety publishing and training. Contract courseware development to Embry-Riddle Aeronautical University, the American Bonanza Society, and others. Create and deliver personalized classroom and flight instruction. Deliver lectures on topics of aviation safety and training. Publish extensively on flying safety.

Director of Safety and Training, Wright Brothers Construction Co., Inc., Charleston, Tennessee. 1998-2002. Envision, develop and present safety and training for operators of heavy construction equipment—program led to nearly 90% reduction in workers compensation costs, and virtual elimination of equipment damage claims. Coordinate required training of managers. Responsible for compliance with OSHA, EPA, Equal Opportunity Commission, and other regulations. Edit and produce training materials and company newsletter. Develop and coordinate special projects. Chief pilot for company airplanes.

Account Executive, AOPA Insurance Agency, Wichita, Kansas, 1994-1996, 1997-1998. Reviewed and approved applications for aircraft insurance. Devised and conducted employee training programs for a staff of over 15. Advised insurance carrier and Aircraft Owners and Pilots Association on insurance-related topics of aviation safety.

Chief Pilot, FliteCraft Turbo, Inc., Pagosa Springs, Colorado, 1996-1997. Developed and conducted flight test profile for turbonormalizer-modified airplanes. Created pilot transition checkout program, wrote training materials, and provided classroom and flight training to owners of modified aircraft. Scheduled and oversaw nationwide delivery operations. Created, wrote and edited company newsletter. Assisted marketing director in developing advertisements. Planned and coordinated annual fly-in safety meeting for owners of turbonormalized airplanes. Responsible for roughly one-third of all company sales.

Lead Instructor, FlightSafety International, Wichita, Kansas 1990-1994. Responsible for all Raytheon/Beech factory approved training for the Beech Bonanza. Developed Bonanza and Baron training materials. Conducted classroom, simulator and flight training. Proposed, created and taught Aviation Weather and Single-Pilot Cockpit Management classes. Created and conducted special programs for airline training utilizing the Beech product line. Represented FlightSafety Beech Learning Center at aircraft owners' conventions.

Operations Manager, Sedalia Flying Service, Sedalia, Missouri 1988-1990. Responsible for flight instruction, scheduling and management of a five-airplane rental fleet. Taught private pilot ground schools at the local community college.

Officer, United States Air Force, 1983-1988. Honorable discharge. Rank at separation: Captain. Primary duty: Minuteman Missile Combat Crew Commander.
